1993 - 1994

UNIVERSITY OF TORONTO

FACULTY OF NURSING 93-94

A MESSAGE FROM THE DEAN...

1993/94 was a momentous year in the history of the Faculty of Nursing because this was the year we launched the PhD program in Nursing Science. This is the first doctoral program in nursing in Ontario and the third in Canada. Both the University of Alberta and UBC mounted programs in 1991 and following our approval, a joint program between the University of Montreal and McGill University was announced.

You many wonder what a doctoral program has to do with the undergraduates. Everything! When there is only an undergraduate program available, students have a difficult time imagining what master's education entails and they have no role models to compare themselves with. Once a program is in place, the reality of going on to graduate education influences career plans and undergraduates start envisioning how and when they will get a graduate degree. This happened when our master's program was started in 1970.

Now that we have a PhD, undergraduates will be able to see how both master's and doctoral education are designed, will meet students in both these programs and will be able to picture themselves as graduate students.

While we welcome students into our master's and doctoral programs who graduate from universities across Canada, there is something special about our own graduates. We feel a mix of pride and accomplishment when students from our BScN program apply and are admitted. we know exactly how hard you have worked and how good you are. We look forward to working with many U of T BScN graduates in our MSc, MN, and PhD programs. Good Luck !

**Dorothy Pringle
Dean**

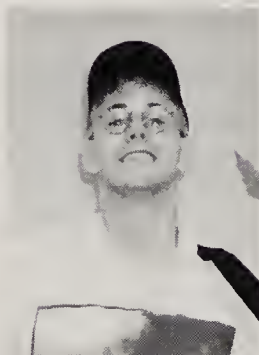

A MESSAGE FROM THE UNDERGRADUATE CHAIRPERSON

Congratulations to the Class of 1994! You've made it ! I wish you all the best as you launch into the beginnings of a new stage in your careers. I hope you will take many happy memories of your classmates and your accomplishments with you. This yearbook with all its great pictures will serve as an excellent reminder for you.

Please stay in touch with faculty members and come back frequently to keep us up to date on all your happenings.

**Joan Brailey
Undergraduate Chairperson**

WINE & CHEESE

This year's wine and cheese was held at the Croft Chapter House at University College. It was a chance for faculty and students to mingle while having the chance to sample the wine and all the great food! many thanks go out to Zelia Meieros and Marilyn Varghese for their hard work in preparing this event.

Here doggie, doggie...want my bone?

Please take this

YEAR IV CLINICAL GROUPS

AIDS

WALK

A-THON

HOW DID YOU FIND THE SCHOOL YEAR?

YEAR I

“Who would have ever thought that in your 1st year of University you would have to write so many essays...especially in *Nursing*.”

“I must admit that this year was definitely not what I expected, actually it has been better.”

“ I love the fact that you can refer to your Nursing pros by their first names. It creates an atmosphere of relaxation!”

“ All in all, I feel that our first year will be the beginning of a great future.”

YEAR II

“ This has been a great year, even better than last year!”

“Spending so much time with my clinical group brought us together. It bonded us in a way that could only be understood by people who spend sooo much time together.”

“The clinical instructors were all great! They were very supportive and taught us the importance of caring in order to become well-rounded nurse...We thank you !

YEAR III

YEAR IV

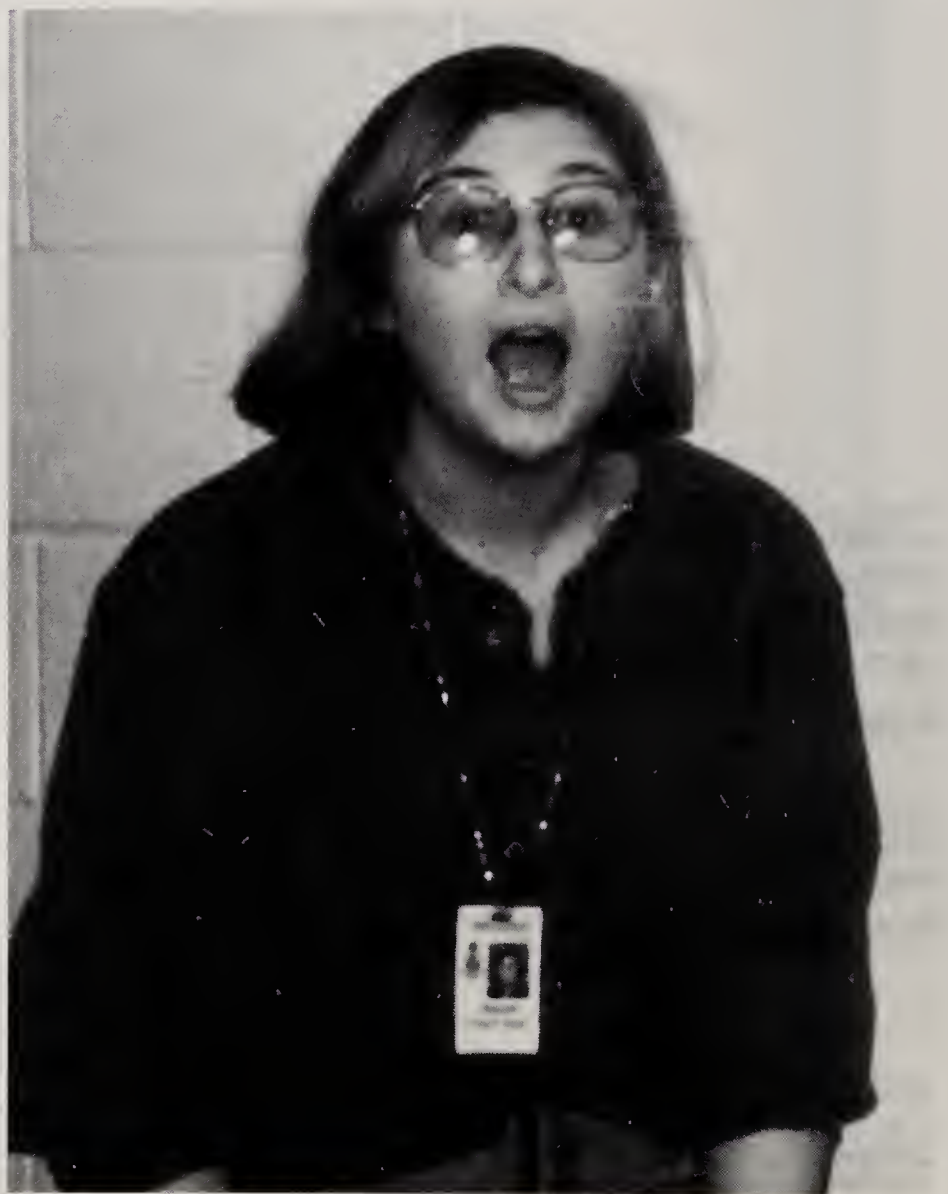

“Most classes were great, except there was one that could have been way better. It starts with and “E” and ends with “Y”. (I think the 2nd year students would agree).”

“Hang in there guys, just keep reminding yourself, only ONE more year to go, then it will be over.”

“These four years have been great, but the cake is when we graduate and thank this faculty not only for our education but also for providing the basis of who we will become in our future careers.”

FRIENDLY CLOSE-UPS

“SAY SEXY CHEESE”

PART ONE

POETRY

"WHERE DO I GO FROM HERE"

**Torn between two sides
I am uncertain to my identity.
One, living in her won world, cannot
grasp the realities of life.
only her sanity has kept her
from those places
The other, a barbaric alcoholic,
cannot control his rage.
Only the love of his own creation has
kept the blows of his massive hands from me.
Who am I to take after, Lord?
Where am I to go?
If I go with one, I'm afraid of becoming
out of touch with the real world.
If I go with the other, I may learn
to commit a homicide.
If I can only be with you Lord,
how peaceful my life would be.
The decision for them to get back
together will not stop me from leaving.
this is my farewell to all who
know me.
I shall sleep eternally tonight.**

G.N.

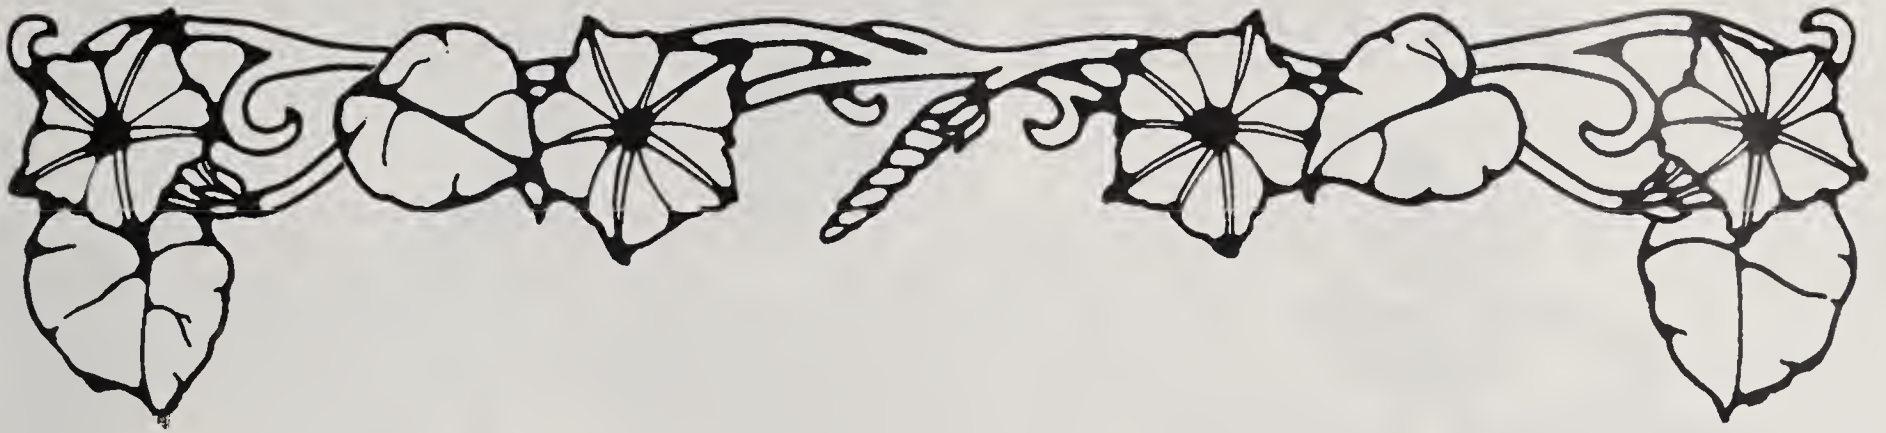

A ROSE I HELD...

**A rose I held once said to me
Does your lover deserve the beauty
you see
Dear rose, I replied
Be not so vain
What pleases the eyes
Disillusions the brain**

F.O.

HOME

**I was freezing in portable fourteen
When I remembered
The warmth of Trinidad and Tobago.
The brightest star of the universe was
shining.
And was reflected off the clear blue
waters
Into my dazzled eyes.**

**The wind was blowing
From the north,
Passing through the tropical trees
Back out to see.
On the other side of the mountain.
Fresh ocean breeze from the Gulf
Was blowing like the perpetual breath
of life.**

**As I walked along the beaches
My toes curled into the warm sand,
And my eyes were lightened
By the sun worshipping Goddesses.**

SOAP...

**I felt young and restless as I lay in the
bed at General Hospital.
I was in another world from my medication.
My mom visited with my brother.
It was Ryan's hope to see me alright.
He was wearing his new jacket with the falcon
crest on it.
My mother said that she loves me and
all of my children.
She said that accidents are a part of the days of
our lives and happens as the world turns.
My wife cam also. She was bold and beautiful
and I looked upon her as my guiding light.
I knew she was still loving me and then
I realized I had only one life to live.
It all started on my trip from Dallas
to Santa Barbara.
I was driving in my new Chrysler, Dynasty when
all of a sudden...**

D.M.

ALONE WITH FREEDOM

**Off we go, away, together,
Towards our freedom with only each other.
Two by two, the days go by,
All alone just you and I.
Then the days turn to weeks,
And our only time is when we sleep.
Soon the weeks turn to months, Our greatest
moments are only hugs.
When the months turn to years,
We try so hard to hide our tears.
But then we finally realize,
Life is not worth it without you and I.**

M.L.

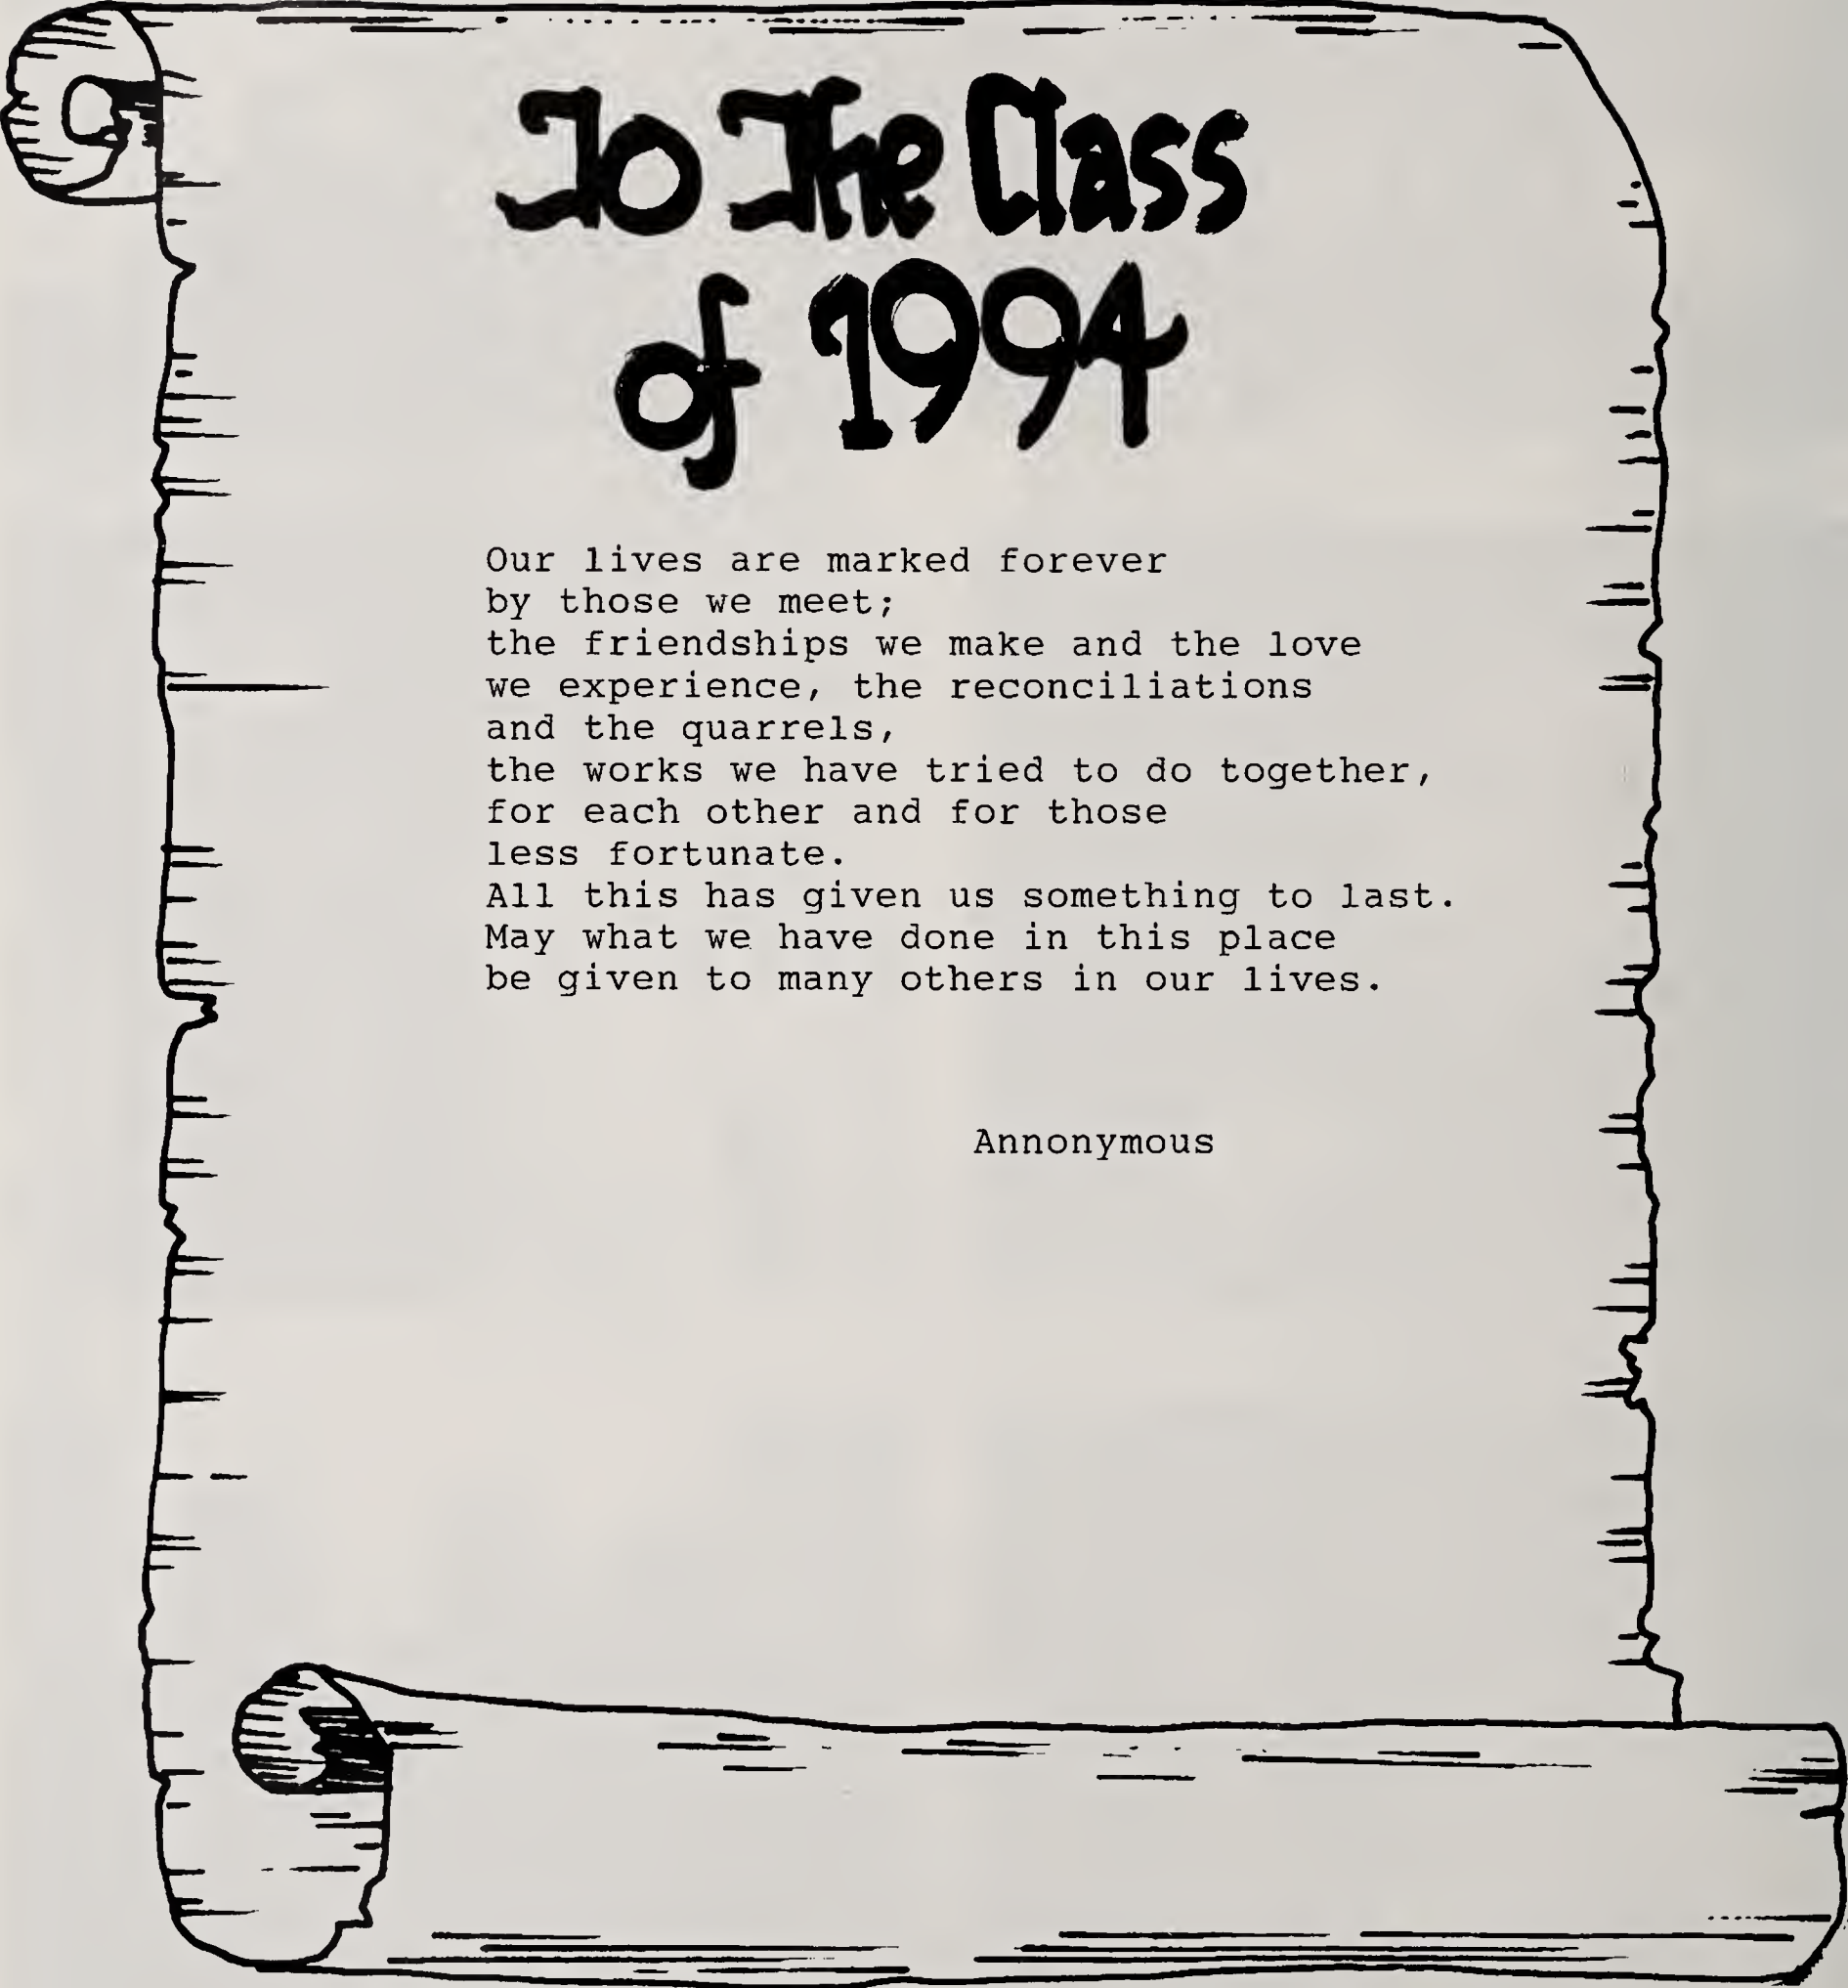

GET WELL SOON???

TOGETHER FOREVER

To The Class of 1994

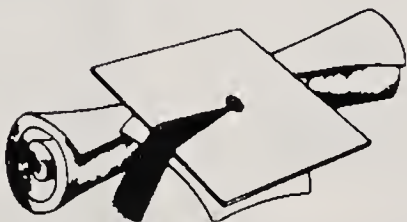

Our lives are marked forever
by those we meet;
the friendships we make and the love
we experience, the reconciliations
and the quarrels,
the works we have tried to do together,
for each other and for those
less fortunate.
All this has given us something to last.
May what we have done in this place
be given to many others in our lives.

1994 Aspire 5-door

Introducing a car made affordable by engineering, not cost cutting.

Our first concern in creating the new Aspire was to build a safe automobile. We started with dual airbags, side-door intrusion beams and optional ABS. But small cars need even more to make them safe.

So, for better stability and handling, we gave Aspire the widest stance in its class. Then we added a front stabilizer bar and a torsion-beam rear suspension. Which means less body roll and better road holding ability.

Aspire's superior visibility comes from improved sight lines, because of its aerodynamic, low-raked hood. And on the SE model, standard fog lights help increase safety in severe weather conditions.

When it comes to peace of mind, you should also know that Aspire is covered with 24 hour roadside assistance and a 36 month/60,000 km no deductible warranty.*

But Aspire isn't only a safe car. It also happens to be surprisingly affordable. Prices start under \$10,000 for the 3-door model.** And with its clean-burning engine reaching 5.1 L/100 km† (highway driving), it's even safer on the environment.

The 1994 Aspire. Through engineering and common sense, we came up with a result we can all live with.

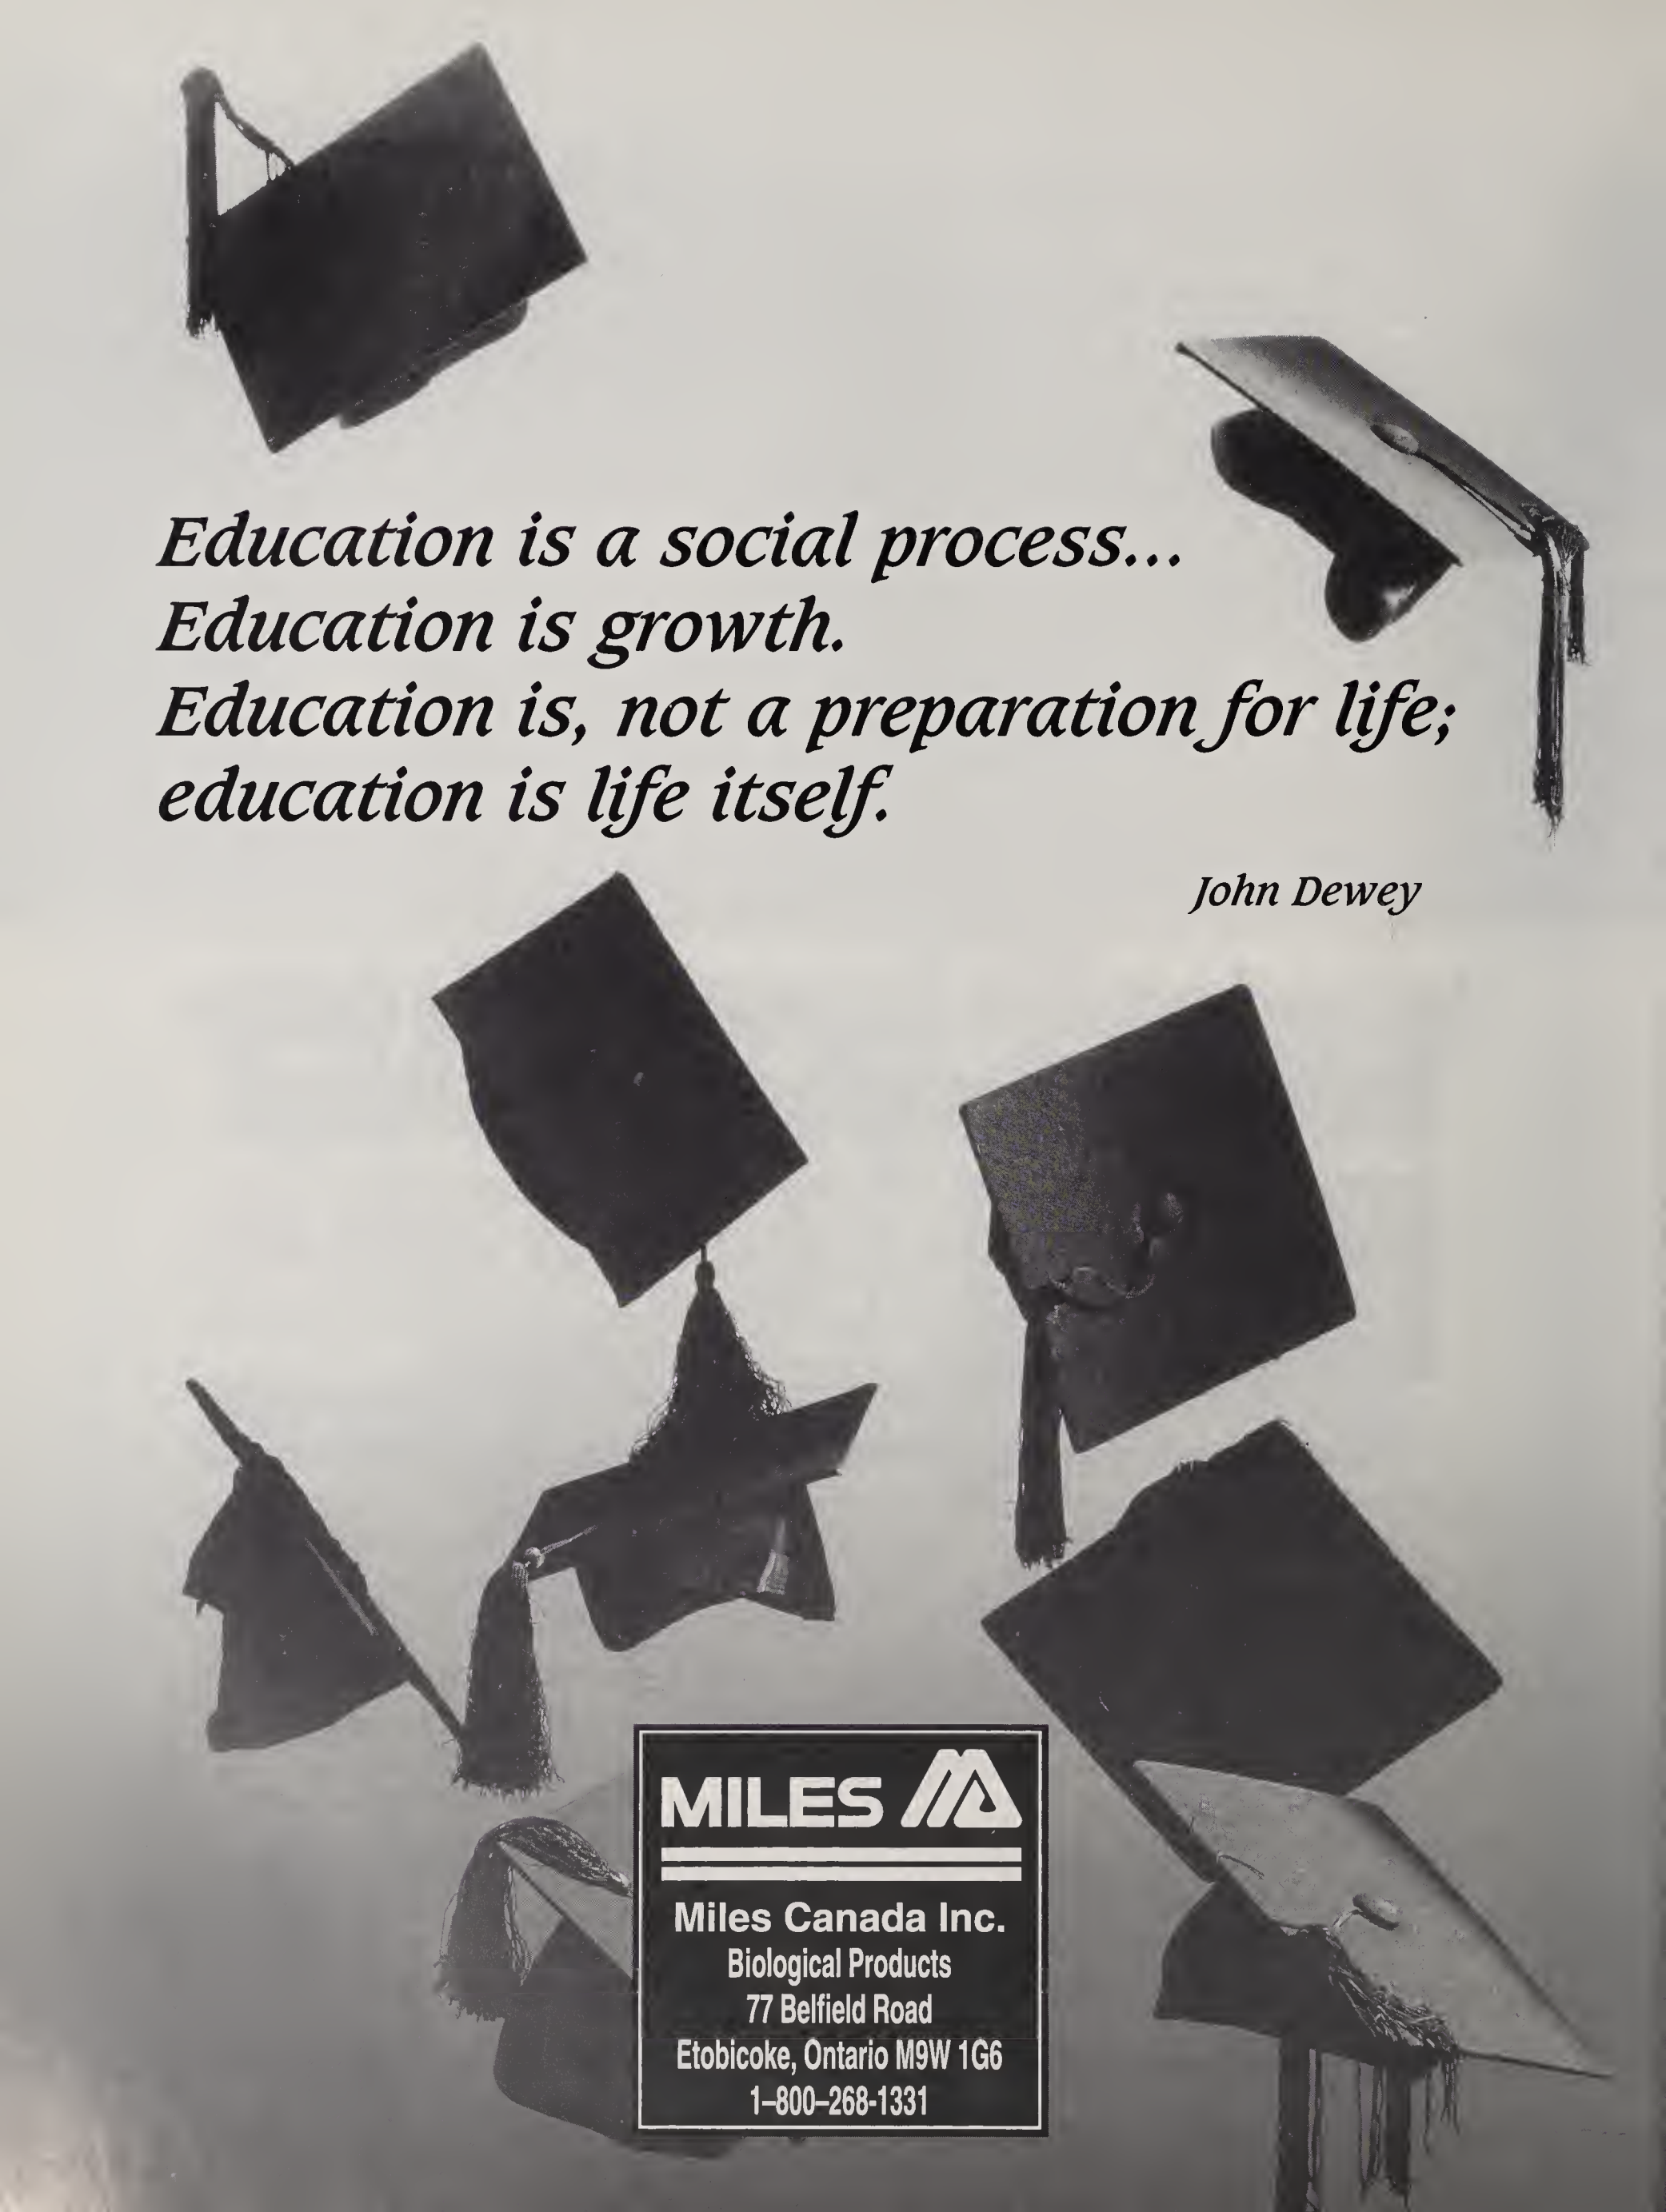

The new Aspire.

Quality is Job 1.

For more information, please call 1-800-561-FORD

*Some conditions apply. **MSRP of \$9,995 is for a 3-door Aspire base model. Excludes freight, license and applicable taxes. Dealer may sell for less. See dealer for details. †6.5 L/100 km city, 5.1 L/100 km highway. Based on Transport Canada test results of a 1994 Aspire with a manual transmission. Fuel consumption will vary depending on the type of driving, driver's habits, car condition and optional equipment.

*Education is a social process...
Education is growth.
Education is, not a preparation for life;
education is life itself.*

e d u c a t i o n

There are many ways in which Canada can build and maintain a strong competitive position in the modern world. But one way stands far above and beyond the rest.

Education.

This nation must nurture the ability to think quickly and analytically, and to transform this thinking into precise action or reaction. This is a crucial task; and the greatest force in this effort is our school system.

That's why Midland Walwyn believes that a well-rounded education is a blue chip investment.

NORTH YORK BRANSON HOSPITAL

North York Branson Hospital is a 300 bed acute care community hospital, with a significant focus in Cardiology, Gerontology, General & Vascular Surgery, and Diabetes Education. Other clinical services include Medicine, Maternal & Child Health, Emergency, Critical Care and Mental Health.

The continuing development of our Department of Nursing has led to the creation of opportunities for dedicated professionals. We support research based practice, decentralized decision making, and continuous quality improvement initiatives. We are committed to promoting and facilitating professional nursing practice at all levels. Recent activities and initiatives include the application of Gordon's Health Patterns and NANDA, and the implementation of Focus charting, modular nursing and computerized order/entry and results reporting. We have recently renovated our inpatient units and critical care areas, and have moved to all RN staffing on our surgical and cardiology units.

You must have a proven ability to work in a collaborative clinical environment. Other qualities we are looking for include a strong nursing vision, demonstrated leadership abilities, and excellent communication and interpersonal skills.

We welcome applications. Send your resume to:

Human Resources Department, North York Branson Hospital

HAMILTON CIVIC HOSPITALS

Hamilton General Division
237 Barton St. E.

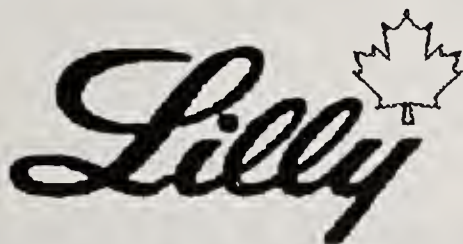

Henderson General Division
711 Concession St.

***THE HAMILTON CIVIC HOSPITALS — TOGETHER IN CARING,
TEACHING AND DISCOVERY***

The Hamilton Civic Hospitals has a proud tradition of service to the community that goes back almost 150 years. This tradition of caring underlies our mission and complements the state-of-the-art technology and expanding facilities at both Henderson General and Hamilton General Divisions. We maintain a strong commitment to research and to the education of a variety of health professionals!

Together our Divisions have more than 3,000 employees and approximately 1,000 beds. Our tertiary commitments provided on behalf of Hamilton's network of teaching hospitals include: burns, multiple trauma, cardiovascular and neurosciences, plus cancer treatment and some aspects of maternity care and rehabilitation medicine.

Because Nursing has to change

If Nurses are to gain the respect and the recognition they deserve, then Nursing has to change. And at The Toronto Hospital, we're committed to change through Case Management.

It's a unique, outcome based model which gives the Nurse more latitude to make decisions, more responsibility for the care of their patient, and places more value on what a Nurse actually does. In fact, we believe it will contribute to the evolution of your profession.

So if you want something more out of your career, you owe it to yourself to talk to us first. Send your resume to: **Nursing Recruitment, The Toronto, Hospital, 585 University Avenue, Toronto, ON M5G 2C4**

THE
TORONTO
HOSPITAL

Modern sciences have introduced many improvements to health care, including safe and efficient systems for patient medication. Innovative packaging is a vital element.

Jones Box and Label, which has supplied quality packaging for medical products for a long, long time, offers the latest in drug distribution systems for hospitals, nursing homes and all health care centres. These include: mobile units for administering and charting medication at bed-side, single dose and cyclical-dose packaging equipment and supplies, all tailored to the needs of the pharmacist.

The expertise of Jones Box and Label continues to contribute to modern patient care.

Chedoke McMaster Hospitals

GREAT THINGS ARE ON THE HORIZON!

And nursing is on the rise at Chedoke-McMaster Hospital! We have introduced a professional practice model which has as component pieces: Primary Nursing, shared governance, professional development, research, research-based practice, and use of automated systems. We strive to be leaders in innovative nursing practices.

Come practice nursing in our University Teaching Hospital. We are located in the heart of the Hamilton-Niagara region, a short drive from Toronto, Niagara and Stratford.

When weighing your career options consider the advantages we offer, we are particularly interested in baccalaureate-prepared nurses and have the unique advantage of close physical proximity to McMaster University. Exciting research, teaching and learning are a way of life here and greatly enhance the quality of patient care as well as contributing the professional development of our staff.

As a Chedoke-McMaster Hospitals Staff Nurse, in a wide variety of specialty areas, you will function as a full member of an interdisciplinary team of health professionals, enjoying all the benefits of a genuinely progressive health care facility. These benefits include a participatory management style, tuition assistance, counselling, and flexible scheduling for your continuing education. Apply to:
